

Paulo Pinho

Senior Full-Stack Developer — AI & Web Platforms

Porto, Portugal · +351 917 432 801 · pauloedspinho20@gmail.com · linkedin.com/in/pauloedspinho · github.com/pauloedspinho20 · hotdogtor.com
EU work authorisation (no sponsorship) · Portuguese (native), English (professional) · Remote worldwide (CET/GMT+1)

Senior Full-Stack Developer who ships products end to end.

Also referred to as: Full-Stack Engineer · Software Engineer · Web Developer · AI Engineer

Full-Stack Developer with **10+ years** designing, building and deploying scalable web applications across **fintech, AI, blockchain, e-commerce and entertainment**. I work across the whole stack — **React, Next.js, Vue.js and TypeScript** on the front end, **Node.js, PHP/Laravel and ASP.NET Core** on the back end — with deep **SQL and data modelling** foundations. I ship production **LLM features with LangChain, RAG and WebSockets**, lead code review and mentoring, and obsess over **Core Web Vitals and performance budgets**.

Technical Skills

LANGUAGES	TypeScript, JavaScript (ES6+), C#, PHP, Python, SQL, HTML5, CSS3
FRONTEND	React.js, Next.js, Vue.js, Angular, Tailwind CSS, SASS, Bootstrap, jQuery, Storybook
BACKEND	Node.js, PHP, Laravel, ASP.NET / .NET Core, RESTful APIs, GraphQL, WebSockets
AI & DATA	LangChain, RAG, LLM API integration, vector databases, prompt engineering, agentic development workflows, SQL Server, MySQL, MongoDB, MariaDB, SQLite
CLOUD & DEVOPS	Docker, AWS, Azure, Apache, Jenkins, CI/CD pipelines, Git, Agile/Scrum
TESTING & QUALITY	Jest, Playwright, Cypress, Storybook, code review
CREATIVE & 3D	Three.js, WebGL, WebGPU, WGSL, TSL, GSAP, D3.js, p5.js, real-time audio, Figma, Photoshop, Illustrator

Professional Experience

Senior Full-Stack Developer

Miew · Porto, Portugal May 2024 – Present

- Lead frontend architecture for enterprise-grade **fintech and AI platforms** ([daskapital.eu](#), [koltena.com](#)), owning delivery from concept to production.
- Shipped real-time **conversational AI interfaces** using **LangChain + RAG + WebSockets**, streaming low-latency LLM responses to production users.
- Applied **agentic AI development workflows** to accelerate delivery and raise code quality across the team.
- Established code-review standards and **mentored junior engineers and trainees**, accelerating onboarding and shipping velocity.

Freelance Full-Stack Developer

September 2023 – May 2024

- Designed and deployed full-stack web applications for B2B clients using **Next.js, TypeScript and modular CMS backends**.
- Launched [hotdogtor.com](#), an interactive **WebGL/WebGPU** portfolio with real-time rendering, scroll-driven camera navigation and audio reactivity, held at 60fps across devices.
- Advised startups on frontend performance, improving **Core Web Vitals by 25–40+ points** and increasing organic traffic on key pages.

Senior Frontend Developer

RealFevr · Lisbon, Portugal September 2021 – September 2023

- Built high-concurrency, state-heavy **blockchain marketplace platforms** with **React.js + Next.js**, supporting thousands of daily active users and complex state management.
- Architected secure, multi-step **client onboarding and transactional dashboard flows** for high-traffic digital collectible products.
- Translated complex product requirements into polished, responsive interface flows built for intense concurrent load.

Senior Frontend Developer

Diamond by BOLD · Lisbon, Portugal November 2020 – September 2021

- Built highly responsive applications with **Vue.js, React.js and PHP/Laravel**, bridging complex backend data with modern frontend frameworks.
- Engineered **headless CMS solutions** and customised **e-commerce architectures**.

Frontend Web Developer

Braver · Aveiro, Portugal April 2018 – November 2020

- Developed high-traffic web portals for major national entertainment and sports brands, including [rfmsomnii.com](#) and [afatv.pt](#).
- Architected custom **Laravel and PHP** solutions engineered to withstand massive traffic spikes during festival ticket launch windows.

Software Developer

Prologica · Aveiro, Portugal November 2015 – April 2018

- Engineered backend business logic with **ASP.NET and .NET Core Web APIs**.
- Designed relational database schemas, stored procedures and data models in **SQL Server and MySQL**.

Selected Projects

hotdogtor.com	Interactive 3D portfolio — real-time WebGL/WebGPU rendering, WebSockets, GSAP, custom camera navigation. <i>Personal project · Full-stack + graphics.</i>
daskapital.eu	Fintech platform. <i>Lead frontend architecture, Next.js + TypeScript.</i>
koltena.com	AI platform with streaming LLM interfaces. <i>LangChain + RAG + WebSockets.</i>
mercadobolhao.pt	Marketplace platform. <i>Full-stack web application.</i>
nonprofitcounsel.com	B2B services platform. <i>Next.js + CMS backend.</i>
eosiq.com	Corporate web platform. <i>Full-stack delivery.</i>
vilacainteriores.com	E-commerce / interiors brand site. <i>Full-stack + CMS.</i>

Education

Bachelor in Information Systems Technologies and Programming

Universidade de Aveiro · 2014 – 2016
